Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can give his customer free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

We'll Break the Rule!

January, as a rule, is a dull month for clothing people. We believe much of the dullness is the fault of the merchants. They labor under the impression that nearly everyone has laid in their winter supplies and fear to expend money for printer's ink. We will break the rule and see what virtue there is in printer's ink and the effect of good clothing at about 50 cents on the dollar. Now, the first thing you want to do is to read this ad. carefully; the next is to come and see the goods advertised. What will follow will be a rule-breaker.

On Thursday morning, January 13th, and until the end of the month, all our fine Beaver Overcoats—garments that sold for \$10, \$12 and \$15—will go at \$8.75.

Our finest Beaver, Kersey and Cover Overcoats that sold at \$18, \$20 and \$25 will go at \$15.

Our Cheviot and Cassimere Suits that sold at \$10, \$12 and \$15.60 will go at \$8.75.

Our finest Cheviots, Worsteds and Cassimere Suits that sold at \$15, \$18 and \$20 will go at \$12.

We need not comment on qualities. Everybody knows what class of clothing we sell.

\$4.90! \$4.90!

This represents the selling price of 200 all-wool Cassimere and Cheviot Suits that we recently closed out from C. Meyers & Bro., Philadelphia. Not a Suit in the lot that isn't worth \$9. They come in four styles and all sizes. We believe them the greatest bargains we were ever able to offer you. Thirty day morning the entire line will be in our show-window. Look for the \$4.90 Suit. It's a hummer.

For extra bargains in fine Shoes come to us. We want to close out our heavy Shoes to make room for our spring stock.

Spot Cash will be the watchword during this sale.

Sheriff Reichel of Cincinnati enjoys the honor of having sold more real estate in a year than any other official who ever occupied that exalted position. During the past year the sales of real and personal property aggregated the enormous sum of \$1,750,000.

One thing that attracts many people to Cincinnati to buy goods is the bargains that Cincinnati merchants advertise in the Cincinnati papers. Maybe Mayville merchants might keep some of this trade in Mayville if they would advertise bargains in the Mayville papers. Suppose you try THE LEADER.

The matter of entertaining the State Convention of the Young People's Society of Christian Endeavor, which was stated a few days since had been offered to Mayville by President John D. Ellis, was voted on by the several Societies Sunday evening and it was decided not to extend the invitation. The President has been notified, and another place will be offered the honor.

Edward and Mary Hiatt, whose names are quite frequent on Judge Wadsworth's docket, were up yesterday on the threshold charge of keeping a disorderly house. They were not satisfied with the Judge's former treatment, so this time they demanded a Jury; and what the Jury did to Edward was \$27.50 and to Mary \$25.00. They will now be orderly for several weeks.

THE MAN OF THE HOUR.
When water taps decline to flow,
And hands are nipped and numb,
When kitchen boilers burst and blow
Our cooks to kingdom come;
When in our rooms are standing pools,
Or rivers with the spate,
The Plumber, with his bag of tools,
Is master of our Fate.

He comes at ten, with double knock,
And thinks the matter o'er;
He goes to dine at twelve o'clock,
And comes again at four.
He shakes his head with knowing wag,
And says he's found the leak;
Then, walking off with shoulder d'bag,
Returns another week.

O! Plumber, calm, and cold, and sage,
How conscientiously you show
An overdrive, fevered age
The art of going slow.
Our first four champions to the rear
Must slink in shame away;
Since you, more forward pioneer,
Embrace a Two Hours day.

—Pich Mc-Tu.

Speaker Reed favors an amendment to the rules of Congress to cut off ex-members from the privileges of the floor.

Albert S. White, a colored attorney of Louisville, says he has been offered the Consulate to Sierra Leone, a British Province in Africa. The post pays about \$2,500 in salary and fees. White is the first Kentucky Negro to be offered a Consulate by any Administration.

James F. Berry, the late tramp millionaire, fills a pauper's grave at Paducah. He was buried in the potter's field at public expense. A pine plank, sharpened at one end, and a rough mound will mark the resting place of the man who tried to spend \$100,000 and succeeded in seven months, though it cost him his life.

The LEADER's crib yesterday dropped into the Marble Works of J. M. Redden, 27 East Second street, and must confess for genuine artistic work Mr. Redden is the man to beat, being a practical workman of life time experience. He will make closer estimates than dealers who have to depend upon high priced workmen. We advise all who are wanting anything in Mr. Redden's line to consult him before purchasing.

In Mexico the law's delays are less vexatious than in the United States. Indeed, one hears nothing at all about delay in the Administration of Mexican justice. A short time ago a paymaster went down into Sonora with between \$6,000 and \$7,000. He stopped over night at a ranch, where he was robbed and murdered. The robbers were caught by the local police, but the magistrate discharged them. Then the Government took a hand in the affair. The robbers were caught again and shot. The magistrate had in all cities an outbreak of typhoid fever. The memorials will ask Congress to take some action to compel these cities to make other disposition of their sewage than allowing it to run into the Ohio river.

It is said that Senator Deboe's bill to divide Kentucky into two Federal Court Districts will meet with determined opposition in both the Senate and House. It is believed all the Democrats in the Kentucky Congressional delegation will oppose the measure, while two of the Republicans will be lukewarm in its support.

There are reasonable grounds to believe that the Episcopalian brethren of Kentucky will shortly have some desirable patronage to dispense. It is said that the Right Reverend Bishop Dudley will accept the position of General Secretary of the Foreign Missionary Society of the Protestant Episcopal Church and resign his bishopric to devote his time and attention to his new duties. This will create a vacancy in filling which, possibly with Rev. Reverend Estill of Louisville or with Rev. W. G. McCready of Newport, a vacant rectory that already any minister might covet as consistently as his calling will permit, will then have to be filled.

NEWSY NOTES FROM SATURDAY'S GREAT HIGHWAY.

The marks show 39.7 and falling slightly.

The handsome Queen City will be the next Pittsburgh boat down, passing this city tomorrow evening.

The Keystone State with a fine trip passed down last night from Pittsburgh and will return tonight.

The Boatmen of the wrecked Perry Ketchikan, will be repaired and the Governor is looking for rat dogs, as he thinks the species of rat that infests the mansion is too large for cats.

The Buckeye State will leave Cincinnati February 13th as an auxiliary Mardi Gras boat, as one boat this year will not accommodate the crowds.

The pilots of the Joseph B. Williams believe that the accident to the Williams at Glenfield was caused by striking one of the boilers of the wrecked Perry Ketchikan. The wreck of the boat has moved down quite a distance and is a menace to navigation. Captain Dillipod says the Williams is the finest "handier" on the river since she has been equipped with a steam steering apparatus.

Captain John E. Klein, the guest hustler of Pittsburgh, is in Cincinnati settling up the insurance of the wrecked steamer Hotspur. Captain Klein had particularly hard luck with the boat, having practically rebuilt her only about four weeks before she went over the dam at Lock No. 4 on the Monongahela River. The boat was insured for \$4,000. Captain Klein is looking for another boat to replace the Hotspur.

It is likely that he will buy a boat before many days. The John Mackey suits him exactly, but costs a little too much money for him just after his recent losses.

Arguing in behalf of enlarging and deepening the outlet to the Gulf, Mayor Flower of New Orleans said: "During the past year the commerce of the port of New Orleans has almost doubled, and it is still increasing at that ratio. The jetty has served their purpose. It is it can be shown that since their construction, nineteen years ago, the saving in freight rates to the producers of the Mississippi Valley who ship abroad has been in the neighborhood of \$200,000,000. But the jetties are no longer adequate. When they were constructed sea-going vessels were not built to draw over 25 feet of water. The estimated cost of improvement and extension of them which we will ask Congress to make is \$5,000,000. If we get 30 feet of water that amount can be saved to the producers of the Mississippi Valley in two years."

The Health Officer of East Liverpool, O., has prepared a memorial and will forward it to Congress on the sanitary condition along the Ohio. It contains an original view of why there is such an outbreak of typhoid fever along the Ohio just after the first rise from headwaters in the fall. He says that when low water comes in the summer and the wickets at the Davis Island Dam are raised and the cool pools are allowed to fill up a great extent of slack water is created. The sewage of Pittsburgh and the other cities and towns along the river above the dam is allowed to enter the sewage into the cool pools and the Davis Island Dam and remains until the full rise comes and the wickets are lowered. Then in a health-destriving stream the foul accumulations of the summer rush down the Ohio Valley and have in all cities an outbreak of typhoid fever. The memorials will ask Congress to take some action to compel these cities to make other disposition of their sewage than allowing it to run into the Ohio river.

We All Know

There is a popular belief that eyes cannot be properly fitted outside of an oculist's office, but we are constantly proving the incorrectness of that belief. If you have a dull pain about the eyeball, or if, when reading, the letters seem to run together, call and be relieved. We charge nothing for examination, and guarantee satisfaction in every case.

Printers, like other people, have to eat—sometimes. That is, if they can get the material. But they can't get the material without money—unless someone gives it to them. Now, if you owe this Printer, he will gladly accept a few country hams, a bunch or two of potatoes—or most any old thing that comes from the farm—and will give full credit at market prices. See?

The Governor's Mansion has long been referred to as a "rat trap" because it is a building not in keeping with the dignity of the state, but Governor Bradley is showing an evidence that the house has real title to the designation. Rats some time Tuesday night began work on the large metal water pipe leading from the kitchen and entirely severed it, the marks of their teeth being plainly seen upon it. A plumber repaired the damage and the Governor is looking for rat dogs, as he thinks the species of rat that infests the mansion is too large for cats.
